**SINGITEN BESHADA**

Addis Ababa, Ethiopia | +251944067097 / +251999052995
singiten2127@gmail.com
GitHub: https://github.com/singiten
Portfolio: https://singiten.github.io/portfolio/

Full Stack Developer with 2+ years of hands-on experience building and deploying production-ready web applications. Proficient in React, , Node.js, and Express.js, with a strong focus on RESTful API architecture, database management, and modern UI implementation. Proven ability to take end-to-end ownership of features in remote, collaborative environments, with a track record of successfully maintaining live deployments on cloud platforms like Render and Vercel.

## TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design
Backend & API: Node.js, Express.js, RESTful API Architecture, JWT Authentication, Middleware Design, Rate Limiting
Database: MongoDB, Mongoose (ODM), PostgreSQL (Basic), Database Schema Design
Cloud: Vercel, Render, Git, GitHub (Feature Branching, Pull Requests)
Tools & Collaboration: VS Code, Postman, Figma to Code translation,GitHub issue trackers

## PROJECTS

**Mehbere Edomias** – Full Stack Spiritual Association Platform
Tech Stack: React, Vite, Node.js, Express, MongoDB, Cloudinary, Tailwind CSS, Render
Architected and deployed a complete dual-interface web application (Admin Dashboard + Public Website) from scratch to production, serving a registered Ethiopian Orthodox nonprofit association.
Developed a secure Node.js/Express.js backend to manage RESTful APIs for members, donations, events, and content. Implemented robust JWT authentication and Role-based Access Control (Guest, Member, Admin) to enforce data security.
Engineered a dynamic Admin Dashboard enabling full CRUD operations for member management, donation verification, and content publishing, including a custom multi-image upload gallery integrated with Cloudinary.
Built a responsive, bilingual (Amharic/English) Public Frontend using React and Tailwind CSS, featuring dynamic service pages, image galleries, and interactive event calendars.

**Ahadu Job Portal** – Full Stack Web Application
Tech Stack: React, Node.js, Express, MongoDB
GitHub: https://github.com/singiten/ahadujobs
Designed and implemented a fullstack job portal featuring secure user authentication, user account management, and access control using Express.js and JWT.
Tested and debugged the application across multiple browsers and devices to ensure cross-platform compatibility and responsive performance.

**Flora Social Media App** – Full Stack Web Application
Tech Stack: React, Node.js, MongoDB, Socket.io (Basic)
GitHub: https://github.com/singiten/flora
Performed routine diagnostics and resolved complex bugs in post-creation and authentication features, ensuring smooth asynchronous data flows.
Installed and configured the full development environment (Node.js, MongoDB, VS Code) and tested new features (comment system, follow/unfollow) prior to deployment.

**Ethiopian Book Store** – ECommerce Web Application
Tech Stack: React, Node.js, MongoDB
GitHub: https://github.com/singiten/bookstores
Set up local development environments including database and server configuration, demonstrating strong foundational understanding of back-end architecture.
Created clean, modular documentation for project setup and dependency management.

## EDUCATION

Addis Ababa University
Bachelor of Science in Information Science | Expected Graduation: 2027
Backend teacher at Elevateskills

## ONLINE LEARNING & CERTIFICATIONS

freeCodeCamp
- Responsive Web Design, JavaScript Algorithms and Data Structures, Front-end Development Libraries (Certification in progress).
-INSA 5th batch development trainee

## SOFT SKILLS

Strong written communication, self-management, and experience collaborating asynchronously across issue trackers (GitHub).
Problem-Solving: Analytical thinking with a proven ability to diagnose and resolve complex production bugs.
Collaboration: Experienced in team workflows, code reviews, and feature branching.
Adaptability: Fast learner committed to staying updated with modern web technologies.
